BIAMP + YEALINK
SYSTEM DESIGN GUIDE
CONFERENCE ROOM WITH CEILING MICS

biamp.

When Yealink's video and collaboration solutions are combined with Biamp's legendary audio expertise, the results truly are extraordinary. Build your collaboration experiences from best-in-class solutions that have been carefully tested for seamless compatibility. With Biamp and Yealink you can be confident that your meetings will never sound or look better.

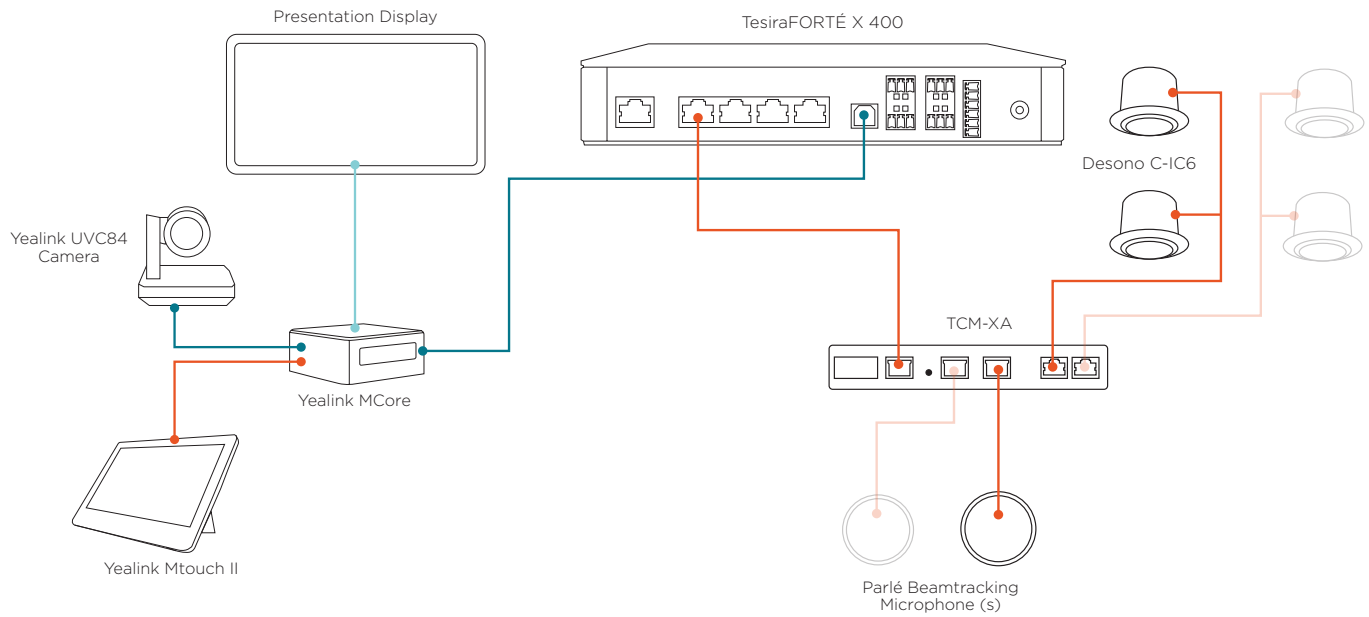

FEATURES/BENEFITS

- Parlé Beamtracking Microphones identify and track voices removing the need for mic beam setup and allowing for natural sounding conversations.

- Biamp's Room Bundles include all the audio equipment and cabling needed to deliver extraordinary meetings every single time. Supporting this are tools and software to minimize deployment time and enhance consistency of tuning.

- This equipment combination from Yealink and Biamp is fully tested and approved by both parties, guaranteeing extraordinary meeting experiences no matter your choice of UC platform.

- Biamp's digital signal processors are trusted around the world to provide the best possible audio processing platform. The TesiraFORTÉ X 400 packs all the power needed to handle any acoustic challenge.
