New Functions And RoadMap

Android Video Bar - MeetingBar A20 And A30

V21 Version (Released 25th Feb 2022)

Available

Functions

Multi-Focus Framing* (Beta)

Participants in the meeting can be split into individual screens and viewed better in the gallery layout. This feature is optimizing, turned off by default.

Picture In Picture* (Beta)

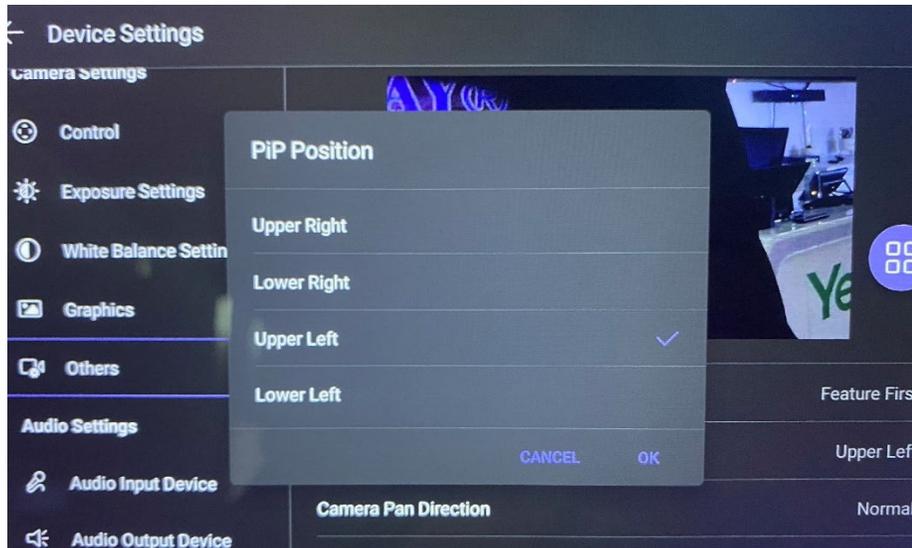

View speaker and the full group simultaneously, the speaker will be highlighted.
This feature is optimizing, turned off by default.

Picture In Picture(PIP)

PIP Display

① Features First

② Panorama First
Auto Framing picture will be the bigger one

PIP Position Change the small picture's position

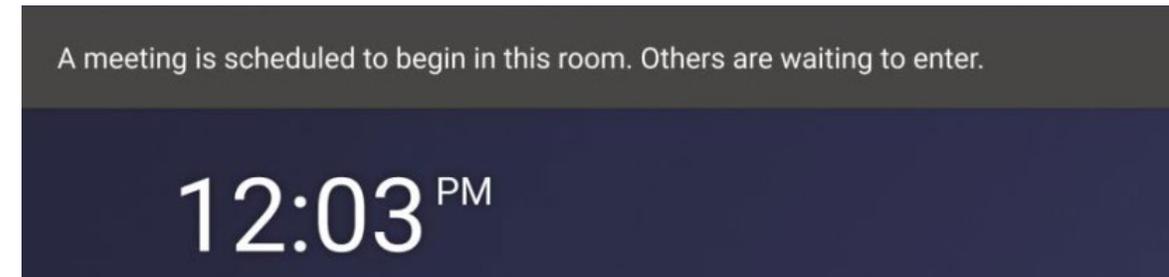

- ① Upper Right
- ② Lower Right
- ③ Upper Left
- ④ Lower Left

Check In

Room Panel

Check in function is used together with Room Panel. Users can check in on Panel. Messages can be synchronized to the paired A20, prompting the meeting room user

A20/A30

Note: Before you use this function, please remember to pair the A20 with the Room Panel under setting of Room Panel

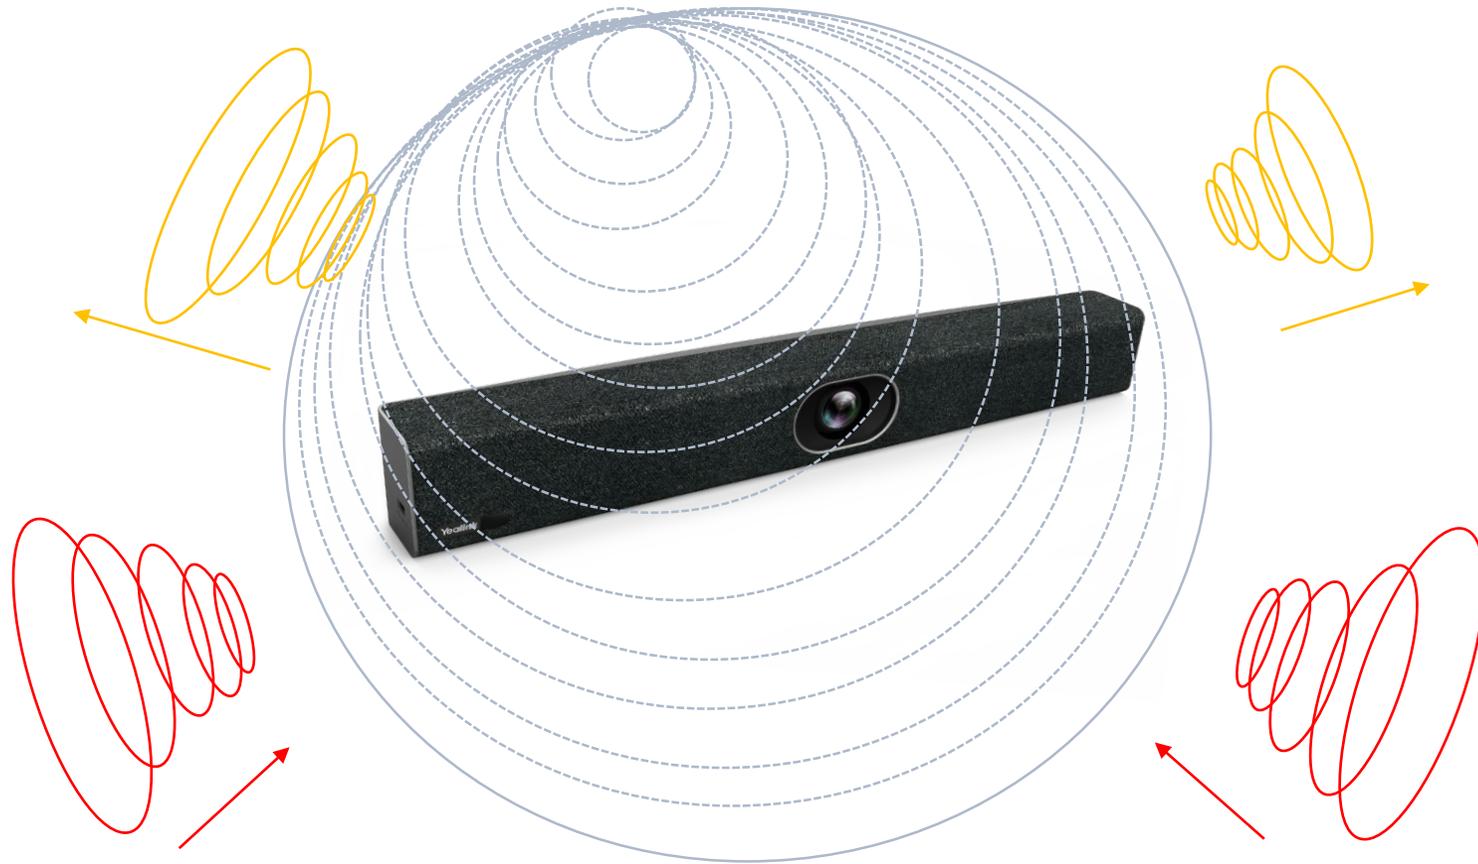

Dual Screen Touch

Dual Screen Touchable. Especially when you using the whiteboard. One TV for interactive whiteboard, another one for touchable TV.

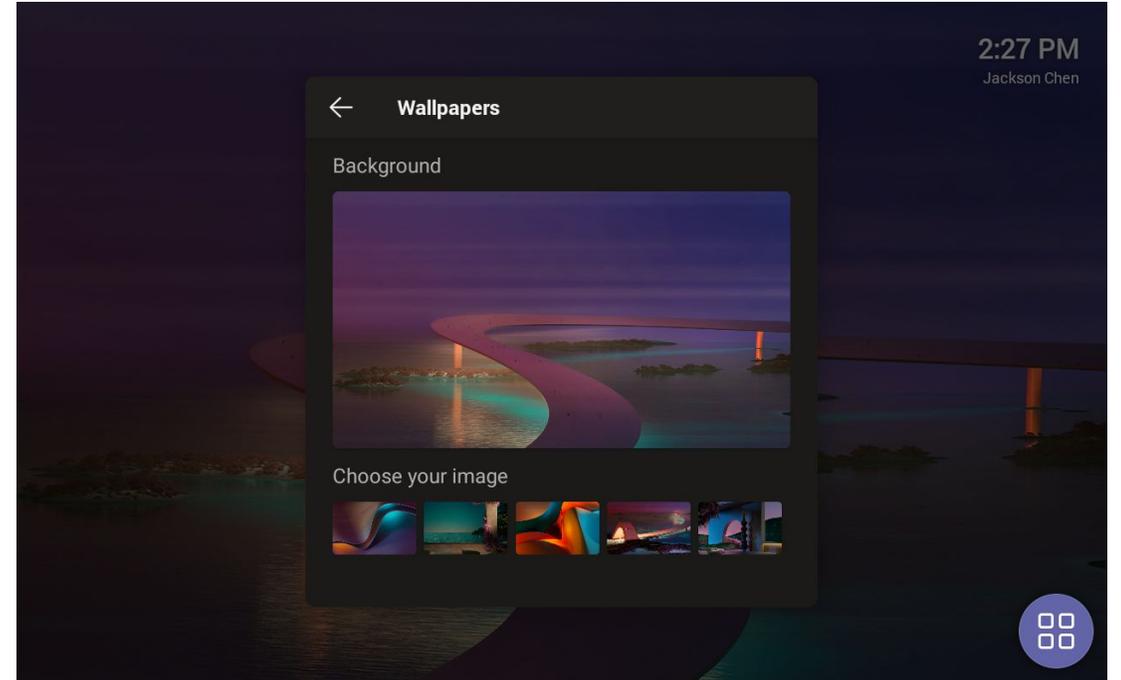

Just connect extra USB cables to the A20/A30 for control signal transmission.

Intelligent Noise Cancellation

Isolate various noises such as pen knocking on the table, clapping hands, rubbing paper, air conditioning and other noises. Its powerful algorithmic ability can minimize indoor noise while retaining the natural voice sound to ensure that the attention of the participants is highly concentrated.

Wall Paper Change

Next Official Version (Q2. 2022)
