

# Yealink

Elevate your meetings with AI

## TRADE-IN AND TRANSFORM

Trade in your old video equipment for Yealink's advanced solutions and experience the benefits of AI-powered meetings, now available with up to 35% off.

\*Please note that regional policies may vary.

Before

After

### Get Included

The camera automatically prioritizes active speakers and cuts out distractions. Your presence is felt.

Before

After

### Feel Immersive

When advanced audiovisual systems can also localize sound, sense lip movement, and eliminate noise, you are always on top of the conversation.

### Meet Efficiently

With Yealink MTR solution and Microsoft Copilot, you gain smarter insights, tasks, and decisions from your meetings, ensuring efficient use of time and resources. AI makes meetings easy.

## THE RIGHT TIME TO UPGRADE

### Meet More Efficiently

Ride the AI wave, and avoid falling behind. Trade-in for enhanced in-room experience and better device management!

### Avoid Security Risk

Microsoft will stop the maintenance of Windows 10 in 2025.\*

### Save Budget Now

Don't miss out on this discount offer. Grab it now before it's gone!

# HOW TO PARTICIPATE:

If you own Yealink's MVC series or video conferencing devices from other vendors like Logitech, Jabra, Cisco, Poly, HP, Neat, etc., and you're considering upgrading your video conferencing setup, you're in luck! Simply scan the QR code and provide the model name and serial number of your old devices, along with the model name and quantity of the eligible Yealink equipment you'd like to purchase. We will promptly get back to you with an offer of up to 35% off the list price.
